

ARRIVING HOME

“Arriving Home” – was the motto at the beginning of 2020 for the 5 experienced musicians, who had already released a considerable range of releases and concerts (Soilwork, Lamb of God, Soulfly, Six feet under and much more) with their previous bands (including HOPELEZZ, Traced by Enemies). With Arriving Home they are now building on these times.

Influenced by the metalcore from the 90s to 2000s and their individual preferences, Arriving Home doesn't try to do justice to others, but only to itself.

Under this premise, the first EP “Part I: Truth” was released on December 3rd, 2021, which was recorded at the renowned Pitchback Studios (Electric Callboy, Any Given Day and many more).

The result received consistently positive feedback and ensured a constantly growing fan base.

In July 2022, Arriving Home released the single “Decay of my soul” and was able to generate further attention.

Professional music videos directed by TenPlus One and Sebastian Pielnick were produced for all releases.

From December 2022 to March 2023, Arriving Home teamed up with Timo Bonner (Our Mirage) to produce their first full album. The 5 musicians have thrown all their experience and passion into one bowl and the result is a mix of energetic, melodic and catchy songs that reflect on the roots of metalcore without getting lost in the modern monotony.

In October 2023, Arriving Home signed with the Berlin based label Easthaven Records (Samurai Pizza Cats, Rising Insane and many more), which will also release the new album in May 2024.
